

Helping your patients live safer, healthier lives

How a power wheelchair from HMS can improve the quality of life for your patients.

Prescribing an HMS Power Chair

Hoveround has been helping individuals with their mobility needs for over 30 years; now we have expanded to assist with complex rehabilitation chairs with Hoveround Mobility Solutions (HMS). Our suite of products is versatile and caters to individuals who face challenges completing everyday tasks with a cane, walker, or scooter. From simply living more independently to aiding in complex rehabilitation, HMS's mission is to provide solutions that meet diverse patient needs.

The Right Chair for Your Patient

HMS is a full-service complex rehab, seating, positioning, and mobility program. We deliver custom mobility equipment, including power wheelchairs, adaptive seating and positioning systems and devices requiring evaluation, fitting, configuration, adjustment, or programming.

GROUP 3 COMPLEX REHABILITATION

For individuals with neurological conditions or those who need more profound mobility support.

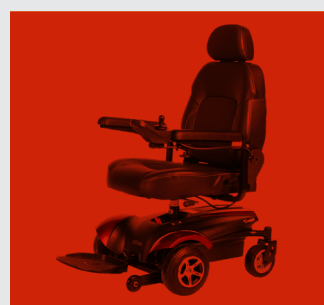

GROUP 2+ STANDARD POWER CHAIR WITH ADDITIONAL FEATURES

For individuals looking for mobility and seating solutions.

GROUP 2 STANDARD POWER CHAIR

For those in need of standard mobility support.

CUSTOM MANUAL WHEELCHAIR

For individuals with the ability to use a manual option. We also offer tilt-in-space wheelchairs and power assist.
